

Aarav Sharma

FULL STACK AI ENGINEER

Email: aarav.sharma.engineer@gmail.com | Phone: +91 98765 43210 | Bengaluru, India | LinkedIn: linkedin.com/in/aarav-sharma-ai

PROFESSIONAL SUMMARY

Highly skilled and forward-thinking Full Stack AI Engineer with over 8 years of successful freelance experience architecting, developing, and deploying robust enterprise-grade applications. Expert in aligning cutting-edge AI functionalities with scalable backend infrastructures and intuitive user interfaces. Demonstrated track record of delivering end-to-end solutions for global clients, combining heavy-duty asynchronous backend systems with high-performance responsive web dashboards. Highly proficient in optimizing database performance, managing cloud infrastructures, and implementing automated CI/CD pipelines.

CORE SKILLS

Java

Spring Boot

React.js

Python

Docker

AWS

PostgreSQL

FREELANCE EXPERIENCE OVERVIEW

Independent Full Stack & AI Consultant (2018 – Present)

Operate as an end-to-end technical partner for enterprise clients and high-growth startups. Scope out technical requirements, design scalable system architectures, manage resource allocation, and write clean, maintainable code. Successfully managed and completed 15+ independent projects, maintaining a 100% on-time delivery rate while implementing robust coding standards and secure architectural practices.

ENTERPRISE PROJECTS

1. AI-Driven Predictive Analytics Platform

Technologies: Python, Spring Boot, React.js, PostgreSQL, AWS

- Designed and built a predictive analytics tool for supply chain forecasting, decreasing inventory inaccuracies by 22%.
- Engineered complex Python-based Machine Learning data pipelines feeding real-time analysis into a Java Spring Boot core API.
- Constructed an interactive, reactive multi-tenant dashboard using React.js to present complex data anomalies dynamically.

2. Enterprise Secure Document Management Pipeline

Technologies: Java, Spring Boot, Docker, PostgreSQL, AWS Cloud

- Developed a highly secure, automated document indexing and parsing application handling over 500,000 corporate documents daily.
- Containerized the entire multi-service infrastructure using Docker, achieving standardized local and staging deployment matrixes.
- Leveraged AWS S3 and RDS PostgreSQL to ensure reliable 99.99% system availability with automated failovers and encrypted data-at-rest.

3. Automated Customer Operations Suite with Conversational AI

Technologies: Python, React.js, Spring Boot, AWS Lambda, PostgreSQL

- Created an AI-powered automated ticketing and conversational routing engine that lowered support agent load by 35%.
- Utilized Python for Natural Language Processing (NLP) models, routing critical tasks asynchronously through Spring Boot microservices.
- Built an administrative dashboard using React.js featuring live WebSocket streams for ongoing agent-customer interaction monitoring.

4. High-Throughput Financial Transaction & Audit System

Technologies: Java, Spring Boot, PostgreSQL, Docker, AWS EC2

- Architected a secure ledger and transaction reporting framework tailored to stringent regulatory auditing benchmarks.
- Optimized raw PostgreSQL queries and indexing schemes, reducing report execution times from minutes to sub-seconds.
- Established robust CI/CD code delivery workflows utilizing AWS infrastructure ensuring zero-downtime rolling updates.

KEY STRENGTHS

- **Full-Stack Architecture Mastery:** Seamless transition from writing infrastructure-as-code scripts to refining pixel-perfect UI views.
- **Problem Solving & Agility:** Strong consulting foundation with an innate capacity to quickly adapt to distinct industry domain spaces.
- **Performance Optimization:** Extensive experience isolating bottlenecks across database connections, server threads, and browser execution.

CERTIFICATIONS

AWS Certified: AWS Certified Solutions Architect – Professional

Java / Spring: Oracle Certified Professional: Java SE Developer

EDUCATION

Degree: Bachelor of Technology (B.Tech) in Computer Science & Engineering

Timeline: Graduated 2018

Declaration: I hereby declare that all the information stated above in this resume is true, complete, and correct to the best of my knowledge and belief.
